Policy Owners' Protection Scheme

This policy is protected under the Policy Owners' Protection Scheme which is administered by the Singapore Deposit Insurance Corporation (SDIC). Coverage for Your policy is automatic and no further action is required from You. For more information on the types of Benefits that are covered under the scheme as well as the limits of coverage, where applicable, please contact Us or visit the Life Insurance Association (LIA) or SDIC web-sites (www.lia.org.sg or www.sdic.org.sg).

Nature and Objective of the Plan

This is a regular Premium endowment plan designed to provide a Yearly Cash Benefit starting from the end of the second Policy year and a Maturity Benefit at the end of the policy term.

This plan also provides coverage against death, terminal illness and accidental death (on or before reaching the Policy anniversary when the Life insured attains Age 80) during the policy term. It also waives the Premium of the policy if You become totally and permanently disabled (on or before reaching the Policy anniversary when You attain Age 86).

You can choose Your premium payment term to be two (2) or five (5) years. Depending on Your choice of premium term, the policy terms available ranges from six (6) to fifteen (15) years.

This is a Participating life insurance policy. It allows You to participate in the performance of the Participating fund in the form of bonuses that are not guaranteed.

This is a guaranteed issuance policy which means that We issue this policy without asking for Your health declaration or medical checks at the time of application.

Plan Benefit

Yearly Cash Benefit

You will receive a guaranteed Yearly Cash Benefit starting from the end of the second Policy year until the policy matures, as long as the Life insured is alive and the policy is in force.

The Yearly Cash Benefit is 3.9% of the Face value.

You may accumulate Your Yearly Cash Benefit with Us at the prevailing interest rate. The prevailing interest rate is non-guaranteed and We may change the interest rate at any time by giving You thirty (30) days' written notice. You may withdraw the Yearly Cash Benefit accumulated with Us at any time with no

charges but the minimum withdrawal amount each time is the lower of either S\$1,000 or the entire amount.

Before We make any payments, any amounts owing to Us will first be deducted.

If You did not state your choice of Yearly Cash Benefit payout option, the default option is to accumulate Your Yearly Cash Benefit with Us at the prevailing interest rate which is non-guaranteed. You can write in to Etiqua to change Your option fourteen (14) days before Your Yearly Cash Benefit payout.

Death Benefit

Upon death of the Life insured during the term of the policy while the policy is in force, the Death Benefit payable is the sum of the following:

- a) 101% of the total Premiums paid (excluding Advance Premium); and
- b) performance bonus (if any); and
- c) Yearly Cash Benefit and Non-Guaranteed Yearly Cash Benefit accumulated with Us (if any); less any amounts owing to Us.

When We make this payment, the policy ends.

If You have paid an Advance Premium on this policy and death of the Life insured occurred in the first two (2) Policy years, We will pay:

- a) 101% of one (1) yearly Premium paid if death of the Life insured occurred in the first Policy year and refund the Advance Premium paid (without any interest); or
- b) 101% of two (2) yearly Premiums paid if death of the Life insured occurred in the second Policy year;
plus any performance bonus (if any), Yearly Cash Benefit and Non-Guaranteed Yearly Cash Benefit accumulated with Us (if any), less any amounts owing to Us.

When We make this payment, the policy ends.

Terminal Illness ("TI") Benefit

If the Life insured has a TI while the policy is in force, We will pay the Death Benefit in one lump sum.

The maximum aggregate amount payable is Five Million Singapore Dollars (SGD \$5,000,000) per Life insured for all policies and riders issued by Us with TI Benefit.

If the TI Benefit payable is less than the Death Benefit, the Death Benefit will be automatically reduced by the amount paid for the TI. The policy remains in force and the remaining Death Benefit is the original Death Benefit less the amount paid for TI.

If the TI Benefit payable is the same as the Death Benefit, the policy ends when We make this payment.

Accidental Death Benefit

Upon Accidental death of the Life insured on or before reaching the Policy anniversary when the Life insured attains Age 80 while the policy is in force, We will pay 50% of the total Premiums paid (excluding Advance Premium) in addition to the Death Benefit. When We make this payment, the policy ends.

If You have paid an Advance Premium on this policy and Accidental death of the Life insured occurred in the first two (2) Policy years, We will pay:

- a) 50% of one (1) yearly Premium paid in addition to the Death Benefit if death of the Life insured occurred in the first Policy year and refund the Advance Premium paid (without any interest); or
- b) 50% of two (2) yearly Premiums paid if death of the Life insured occurred in the second Policy year.

When We make this payment, the policy ends.

The maximum aggregate amount payable for Accidental death shall not exceed Two Million Singapore Dollars (SGD 2,000,000) per Life insured for all policies and riders issued by Us with Accidental death Benefits.

Total & Permanent Disability ("TPD") Premium Waiver Benefit

If You become totally and permanently disabled (on or before reaching the Policy anniversary when You attain Age 86) during the premium term while the policy is in force, We will waive all future Premiums on the policy for the remaining premium term.

The maximum aggregate amount payable is Four Million Singapore Dollars (SGD \$4,000,000) per Life insured for all policies and riders issued by Us with TPD Benefits.

Investment Rate of Return

For Our Participating fund, the past investment rates of return (after deducting investment expenses only) are shown in the table below.

	2021	2022	2023	Average of last 3 years	Average of last 5 years	Average of last 10 years
Investment Returns	-1.13%	-11.06%	5.49%	-2.48%	1.26%	NA

Please note that past performance is not necessarily indicative of future performance.

The Etiqa Participating fund was set up in August 2014. Hence, the Investment Returns averaged over the last ten (10) years of the Participating fund is not shown.

Total Expense Ratio (TER)

The TER is the proportion of total expenses incurred by the Participating fund to the assets of the Participating fund. These expenses include costs such as investment, management, distribution, taxation and other expenses.

An expected level of expenses to be incurred by the Participating fund has been allowed for in the Premiums payable for Your policy and is not an additional cost to You. If the actual level of expenses vary significantly from the expected level of expenses, it may affect the non-guaranteed Benefits You may receive.

For Our Participating fund, the past TERs are shown in the table below.

	2021	2022	2023	Average of last 3 years	Average of last 5 years	Average of last 10 years
Total Expense Ratio	2.32%	2.26%	1.16%	1.86%	3.02%	NA

Please note that past expense ratios are not necessarily indicative of actual expenses that may be incurred in the future.

The Etiqa Participating fund was set up in August 2014. Hence, the TER averaged over the last ten (10) years of the Participating fund is not shown.

Type of Risk Affecting the Level of Bonuses

The level of bonuses depends on the actual performance of the Participating fund. Key factors affecting the performance of the Participating fund are:

- Investment return
- Expenses incurred or allocated to the Participating fund
- The amount of death and sickness claims paid out on policies in the Participating fund
- The numbers of surrenders of the policies in the Participating fund

We will determine the level of bonuses taking into account the current performance, the future outlook as well as the financial soundness of the Participating fund.

Sharing of Risks

Your Premium, along with those of other Participating policies will be combined in one pool of assets in the Participating fund. The surrender risks are pooled and shared by all policies in the Participating fund which include both single and regular Premium plans. The investment risks borne by Your plan will be shared with other Participating plans. Other risks may be shared among products that have the same features. Examples of such risks include expense risks, mortality risks and morbidity risks.

In determining the level of bonuses that can be supported, the assets available to back the plan will be derived by accumulating the Premium paid at the actual rate of investment return less the cost of insurance, expenses incurred, commission paid, taxes and other costs that may be incurred in managing

the Participating fund.

Smoothing of Bonuses

As investment performance fluctuates over time, bonuses are smoothed to achieve stable medium to long term returns on Your policy. As a result, some of the investment returns in good years may not be distributed so as to boost returns in years where the investment return is low. However, the effect of smoothing is intended to be neutral over time.

(i) Non-Guaranteed Yearly Cash Benefit

Etiqua's bonus distribution policy is to keep the Non-Guaranteed Yearly Cash Benefit at a level that is expected to be sustainable over the long term. Thus, while the Non-Guaranteed Yearly Cash Benefit is usually reviewed annually, it is not expected to fluctuate from year to year. Nevertheless, it may be adjusted up or down under exceptional circumstances.

There is no Non-Guaranteed Yearly Cash Benefit declared yet as this plan was launched in 2024.

(ii) Performance Bonus

There is no performance bonus declared yet as this plan was launched in 2024.

Please note that past performance is not necessarily indicative of future performance.

Fees and Charges

This plan shares in the experience of the fund. This means that any expenses incurred by the fund can be charged to the policy according to the risk-sharing rules described earlier.

Examples of such expenses include:

- investment fees paid to fund managers for providing management services
- mortality (death), Terminal illness, lapse and surrender claims
- marketing and other distribution-related costs
- administration fees incurred in underwriting of new business
- management and overhead expenses

All expenses are shared and charged to the assets backing the policy according to the risk-sharing rules described earlier.

Please note that the charges described in this section will not be in the form of explicit fees or charges to You; it has already been allowed for in calculating Your Premium.

Other Material Information

Update on Performance:

You can expect to receive an annual bonus update from Us on the performance of Your policy and the Participating fund, by October each year. An updated Policy Illustration is available upon request.

Conflict of Interest:

Potential conflicts of interest arise in the allocation of expenses between the Participating and other insurance funds. Over-allocation of expenses to the Participating fund is detrimental to Policy Owners of Participating policies. As such, Etiqa strives to achieve a fair allocation substantiated by regular expense investigations.

Related Party Transactions:

All transactions with the related parties will be approved by relevant internal committee to ensure that transactions are done at arm's length.

Impact of Early Surrender:

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the Surrender value, if any, that is payable to You may be zero or less than the total Premiums paid.

Please refer to the Table of Deductions in the Policy Illustration for the potential cost of surrendering the plan early.

Note:

Age means the age at next birthday.

Face value is the notional value used to determine the Non-Guaranteed Yearly Cash Benefit and the Yearly Cash Benefit. It is not the sum insured of Your policy.

Life Insurance is a contract of utmost good faith and a proposer is required to disclose in Proposal form fully and faithfully all the facts, which he knows or ought to know, as otherwise the policy issued may be void.

The terms and conditions of Your policy are contained in Your Policy Contract.
